What's New from Convention 2018!

One of the most exciting things to come from Convention is being the first to see the new products presented for the year. Young Living is constantly striving to make the world a better place. Not only through their commitment to communities and developing nations, but to us their family. That's right Young Living is a family, and they care about your wellbeing as much as their own.

New products highlighted at the convention range from essential oil singles, to beauty care, Kids health, and a new pantry product!

Oils:

Kunzea Essential Oil Single – Derived from a native shrub that grows wild along the southern coasts of Australia and Tasmania Kunzea was used for centuries by native cultures. The Kunzea essential oil has comparable properties and uses to Tea Tree oil, but offers a more pleasant aroma and milder sensation when applied topically. Helps promote a relaxing environment, soothe fatigued muscles, refreshing respiratory experience, reduce the appearance of skin blemishes, and purify the air.

Lantern Diffuser – Complement your décor and set the mood with this new diffuser. With longer run times and 11 light features, including an alluring candle-flicker mode, this diffuser is a perfect complement to any setting or gathering. The Lantern Diffuser comes with free 5 mL bottles of Tangerine and Peppermint essential oils.

Pantry:

Gary's True Grit Einkorn Berries – This is a great way to enjoy einkorn in its simplest form. Einkorn grain contains only 14 chromosomes, compared to the 48 in modern, hybridized wheat. More than 10,000 years ago, before flour became highly processed, families gathered around homecooked meals created with this ancient grain. Gather your own family around the table for wholesome meals made with farm-grown heirloom einkorn berries!

This subtly sweet ingredient can be used as a base for salads or as a wholesome porridge on cold mornings. It can be enjoyed whole by preparing it similar to rice, or you can mill it into fresh einkorn flour.

Kidscents MightyPro – A unique, synergistic blend of prebiotics and probiotics in a supplement specially formulated for children. Packaged in easy, one-dose packets that can be taken almost anywhere you go, this supplement features over 8 billion active, live cultures to support digestive and immune health.

Featuring a great-tasting formula that can be added to cold food and drinks for easy consumption, MightyPro supports gastrointestinal and immune health and maintains gut health in children, keeping kids up and active. That means fewer missed days of school, day care, and playing with friends.
