## **The D. Gary Young, Young Living Foundation**

We have all seen the options when placing our orders to donate money to the Young Living Foundation. But do you really know where the money is going or what it is being used for? I had been skeptical for a long time; become cynical by the truth of where other donations to well-known organizations are spent. Until I attended the international convention and heard the testimonies of those impacted by your donations.

Did you know 100% of your donations are directly used to support your chosen cause? \$0 are used for administrative costs, salaries, or other costs associated with getting your funds where they are needed to make an impact.

### **Sole Hope**

Sole Hope is in Uganda. They offer hope, healthier lives, and a freedom from foot-related diseases through education, jobs, and medical relief. One of their primary focuses is to help children and adults become and remain jigger free.

Jiggers are sand fleas that burrow into the hands and feet. Once they are embedded, the female jigger lays eggs and creates egg sacks in the skin up to the size of a pea. They continue to multiply by laying more eggs until the wounds become so irritating they limit normal childhood activities. Simple things such as walking, running, playing, and even attending school become excruciating and limit their quality of life. In addition to the dangers these open wounds can create, a stigma follows the person infested. They are teased, taunted, or bullied. In some cases, they are even locked in their homes because they believe the infestation is the result of witchcraft or evil spirits. Leaving many people ostracized from their families and communities.

Sole Hope has grown to help roughly 400 people, mainly children, each week. They begin by washing the feet then medically treating and removing the jiggers by trained professionals. They then educate children and caretakers on how to remove jiggers, prevent infection, and reduce the negative stigma associated with the parasite.

Sole Hope employs local shoemakers and trains them in making durable, protective shoes for the community. Once a patient is in recovery they are returned to their village where the home is sanitized inside and out, and they are provided with a new bed.

We heard first hand testimony about how your generous donations allowed them to double the capacity of their clinic, build a new one, and create a mobile team to treat many more in remote areas. We heard testimony of children who walked for days to reach their clinic. For them it was a last resort because they had been completely ostracized by their community.

### **Healing Faith Uganda**

A person dies every 60 seconds from Malaria in Africa, the majority of those deaths are children under the age of five. Healing Faith Uganda provides malaria education, prevention, and treatment to families and children. They focus on the smaller, more remote villages where families have limited access.

Through your donations they were able to reach a remote island community only accessible by boat and hang a net over every bed for protection. Your donations have allowed them to go from hanging 400 nets in a

month to more than 4,000 a month. A single donation of just \$5 provides a mosquito net that can protect 3-4 children from malaria.

## Hope for Justice

Hope for Justice's mission is to end human trafficking and slavery, in our generation. With more than 20 million slaves in the world-more than half of which are women and girls, human trafficking is one of the most devastating social issues of our time. Hope for Justice works to train, rescue, advocate, and restore victims of human trafficking. They work with victims to overcome trauma and rebuild their lives. More than 90% of the victims who go through the Hope for Justice restorative programs never return to trafficking. That's the highest percentage among nonprofits battling modern-day slavery. Their restoration services have a global reach including Cambodia, Thailand, Vietnam, U.K., USA, Norway, and more.

### ***Other projects supported by your generous donations include:***

**Rebuild Nepal** – focused on rebuilding Nepal after the devastating earthquakes of 2015.

**Young Living Academy Ecuador** – providing quality education and a future for students. Considered a prestigious educational system of the area with record setting graduation and college acceptance rates.

**Disaster Relief** – Providing relief to many disasters that strike communities around the world including Hurricane Dorian, Puerto Rico Relief Response, Hurricane Harvey Relief Response, and Mexico Earthquake Relief of 2017.

Thank you for your continued support of these causes. Your small donations make large impacts on the lives it touches.
